**The UAF is a positive force that helps shape the future of the aftermarket.**

Since 1986, the University of the Aftermarket Foundation has funded millions of dollars of scholarships, grants, research and ongoing educational programs to help develop a strong, knowledgeable aftermarket work force.

The foundation encourages industry support, including donations for the purpose of honoring or memorializing individuals or otherwise recognizing special events, to help ensure the continued availability of training and education that strengthen the industry. It is supported solely by personal and corporate donations.
